Vegetation Removal Request: Approved Denied DRB Notes: _____

Pruning Request: Approved Denied DRB Notes: _____

Tree Removal Request: Approved Denied DRB Notes: _____

Approved with mitigation # of inches: _____

Notes:

1. Tree removal is generally only approved if the tree is diseased, damaged, or a threat to the home and removal is recommended by a Certified Arborist.
2. Approval is valid for ninety (90) days. If commencement of work is delayed, the DRB must be contacted prior to expiration of approval. An approval extension will be considered if due cause.
3. Mitigation must be in the form of native hardwoods with a caliper of four (4) inches diameter breast height or larger.
4. A licensed Landscape Architect must provide a landscape plan for any required mitigation.
5. Fines may be assessed if mitigation is not installed during the ninety (90) day approval timeframe.
